

Fusion Wines Ltd

**Trade Portfolio Wine Tasting
28th February 2011**

About Fusion Wines Ltd.

Fusion is a new force in the on-trade, supplying wine to trade customers throughout the UK. We offer an extensive list of wines from both old-and new world countries; from Europe we have offerings from established favourites such as France, Italy, Spain, and Germany, and also from more specialist sources such as Austria and Switzerland. We also have a range of wines from the new world.

Why buy from us? - The Fusion Philosophy

Our Philosophy is to offer top quality wines at good prices, enabling you to serve your own customers with confidence and pride. We place particular emphasis on the quality of the wines we have selected for our portfolio, across the entire price spectrum. Even at house wine level, we won't be listing anything we wouldn't be happy to drink ourselves. It's really important to us that our customers can depend on the wines they buy from us, and that they in turn can take pride in their own customer offering.

We also aim to offer wines that are a little unusual - you will find some exotic and unusual wines that you simply won't find easily elsewhere, and which can add some interest to your own list. We are more than happy to work with you to assist you in integrating wines from Fusion into your list, to help enhance your own customer offering.

The wines selected for the tasting represent only a small part of our extensive range which can be found at www.fusionwines.co.uk/fusiontradelist.pdf. and we invite you to explore our pricelist for details of the full portfolio.
